SHEET III · MEGA · MMXXVI

A FIELD GUIDE

for the one-terabyte drive

Space stopped being a question. Gutenberg came back.

Then ten Wikipedias — English to Arabic — every article, every illustration. Then Stack Overflow, then TED Talks. The library began.

NO. _____ STAMPED _____

— Wikipedia, ten languages, with illustrations	331 GB
— Project Gutenberg, seventy thousand volumes	206 GB
— Stack Overflow, the complete Q&A archive	75 GB
— TED Talks, all talks, every language	10 GB
— Medical, repair, and survival references	12 GB

— Zim, hermit of the drive
