SHEET II · MINI · MMXXVI

A FIELD GUIDE

for the two-hundred-fifty-gigabyte drive

The novels didn't make the cut. Text-only Wikipedia did.

The space Gutenberg would have filled went to Stack Overflow — ten million answers, none requiring the lights to be on.

NO. _____ STAMPED _____

— Wikipedia, text only, every article	48 GB
— Stack Overflow, complete Q&A archive	75 GB
— Primary texts, laws, and constitutions	18 GB
— Medical, repair, and survival references	12 GB
— Programming docs, a hundred languages	4 GB

— Zim, hermit of the drive GITHUB.COM / ATMARX / THE-ARK
